

# NitraStik<sup>®</sup>-C

pea and lentil

## Extended label

Inoculant for peas and lentils ("C" culture)

**Not a plant food product**

**Product No. 4052**

### Net weight

2.83 kg (6 lb 4 oz)

### Features

- Sticker included
- Excellent seed adhesion
- Easier to use

### Treats 700 kg (25 bu) of seed

- NitraStik inoculants are cultures of nitrogen-fixing nodule bacteria in a peat-base medium prepared for application to legume seed before planting. Rhizobia working in nodules gather nitrogen from the atmosphere and make it available to the plant

### Caution

- Store in a cool place
- Use before expiration date and only on specified legume seed
- Protect inoculated seed from sunlight or drying winds
- Avoid contact with strong fertilizers
- Plant inoculated seed within 24 hours
- Avoid prolonged or repeated skin contact and inhalation

### GUARANTEED MINIMUM ANALYSIS

This inoculant guarantees a minimum of 500 million viable cells of *Rhizobium leguminosarum bv viceae* per gram

- Recommend use of dust mask, safety glasses, and protective gloves
- U.S. – Information regarding the contents and levels of metals in this product is available at the Oregon Dept. of Agriculture internet site: <http://oda.state.or.us/fertilizer>

### Dry method

Pour NitraStik-C onto seed in the drill box and mix thoroughly until uniformly coated. Layering seed and inoculant while mixing will provide thorough coating of all seeds.

### Limited warranty

The seller warrants that this product contains a minimum number of *Rhizobium leguminosarum bv viceae* per gram viable cells as specified on this label. The seller makes no other warranty expressed or implied as to product viability or performance since storage, use, and growing conditions are beyond the seller's control. Seller's guarantee is limited to the terms set out on the label and subject thereto. Buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.
