

PulseSignal II™ liquid

Plant Signal Technology for

pea and
lentil

Extended label

Net weight

9.67 L bag, plus 21.5 ml Signal molecules

This bag treats:

120 bu (7,200 lb, 3,267 kg) pea or lentil

How to apply

PulseSignal II comes with a small bottle containing 21.5 milliliters of signals and a large plastic bag containing the liquid carrier.

To use PulseSignal II as a seed treatment:

- First pour the entire contents of one small bottle of signals into one bag of liquid carrier, replace the cap on the bag, and shake well to mix
- Apply the contents of the bag evenly to 120 bushels of seed (about 3 ml per kg of seed). To accomplish this, replace the cap on the bag with the supplied hose and spigot, hang the bag upside down and drip the contents of the bag onto the seed as it is augured into the planter or transfer wagon. To ensure proper mixing, do not run the auger at more than half its capacity. The rate of flow onto the seed in the auger can be calibrated by adjusting the spigot valve

Seed treatment recommendations

Some seed treatments can negatively affect the activity of PulseSignal II. Contact your dealer or Novozymes BioAg at 1-888-744-5662 or visit our website at www.bioag.novozymes.com for the most current information on seed treatment compatibility.

MINIMUM GUARANTEE

Biological signal molecules
Hesperetin 0.0063 % (w/w)
Naringenin 0.0025 % (w/w)

Caution

Store the container of PulseSignal II out of direct sunlight and between 4 °C and 25 °C. This product contains biological signal molecules. When handling this product, exercise due care by limiting direct contact with the product. The use of chemical-resistant gloves, safety goggles, a NIOSH approved respirator, and other suitable protective clothing is recommended when handling this product.

Limited warranty

The seller warrants that this product contains a minimum number of Hesperetin and Naringenin as specified on this label. The seller makes no other warranty expressed or implied as to product viability or performance since storage, use, and growing conditions are beyond the seller's control. Seller's guarantee is limited to the terms set out on the label and subject thereto. Buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.
